### James Price

This is my 42nd year in the construction industry. I have twenty years combined union memberships after two state approved apprenticeships, carpentry and concrete/load bearing masonry. I attended Dunwoody Institute for my structural steel and mechanical engineering and University of Minnesota for my construction management degree.

Countless residential, commercial, municipal and government projects later, Janie and I started Alder Engineering Corp. in 1999, a construction management/ independent inspection agency providing service to NW Wisconsin and based here in Cumberland WI., with a satellite office in Minong, WI. We currently serve 27 municipalities with UDC, commercial and zoning projects in Ashland, Barron, Burnett, Bayfield, Polk, Washburn and Douglas counties.

As past President of the Wisconsin Building Inspectors Association NW Chapter, representing 22 counties of NW Wisconsin., we are dedicated to education/training, code developments and legislative activities for life safety, health and economic concerns of communities.

Alder Engineering Corp. is a charter associate member of Heart of the North Builders Association and past officer, as an Associate Director for the HNBA membership, elected in 2003.

Presently serving as CEO and one of three Wisconsin State Representatives to the International Code Council Region III Board.  
Thank you.

James M. Price Jr.  
Pres/CEO  
Alder Engineering Corp.
