M.R.F. Supervisor's Monthly Report August 9th. 2019

The month of July proved to be much busier than last year. The jobs done by Carey and I for July include:

Accepting incoming garbage from all residents, businesses, public, and numerous contractors.

Hauled glass containers into shop. Crushed glass and hauled barrels to storage bin.

Sorted all recyclables that were brought to the M.R.F. Baled cardboard, paper, aluminum, tin, and plastic.

Loaded up demo, solid waste, appliances, and furniture and hauled to Ashland.

Sorted electronics and placed into proper gaylords for shipping to Green Lights.

Checked all the fluids in all machines, and pick-up.

Sorted through old paint and chemicals.

Did our best to keep up with the enormous amount of material that came for the month.

Answered numerous phone calls and various questions.

Re-educated the public as best we could.

Additional info:

1. Marty is working out well. He can only work a few hours, but gets things done. I am able to help keep on baling so far.

Respectfully Submitted,

Ted Pallas Supervisor M.R.F.
