

## Madeline Island Ambulance Service Report

September 19, 2019

September is a quieter month. We have had 3 calls so far this month. We had our state ambulance inspections this month and we passed on both ambulances. When the new Mercedes arrives we will be able to complete its initial inspection on-line.

We had our last meeting with Five Bugles to complete the last details for the new Emergency Services Building. Soon we will begin the interesting part of selecting material details and colors.

We will start having training meetings this month. The first one is in Washburn next week to go over HIPAA rules and regulations. The meeting is being run by WITC at the Washburn EMS hall. All members of the service are welcome to attend. We held our regular monthly meeting and worked on vouchers, the schedule and went over runs from the month before. We are working with Nate and his dad to try to share the Winter Transportation Building for the winter so we don't have to move again. We may also need to share some of the space with the builders for the new EMS building. They may need storage and office space. I am certain we can find room for all that is needed temporarily.

The budget process is progressing. There are always new things to consider. This last year brought on many budget challenges so hopefully the next few years will be more standard.

Respectfully Submitted, Cynthia Dalzell, Madeline Island Ambulance Service
