Subject: Fire chiefs report June 2021

6/3 1673 Hagen road, responded to report of smoke in residence by private alarm company. Responded to apparatus stand by at airport. Our equipment was there as the final blacktopping was being finished at esb. 11 fire personnel responded. On scene stand down orders issued.

6/20 146 old fort road, private caller reported unattended fire that's been burning for hours. We responded 12 personnel at 22:28, the crew proceeded to put out rather large unattended fire. Chief investigated the following morning and located person in charge of fire. A ticket was issued by Washburn DNR as there were more than 1 violations.

This is why I insist on abiding by the rules that go along with a state issued burning permit.

6/25 lift assist at 3437 big bay road. Fire department toned out to assist ems on a bicycle accident with injuries.

6/27 canoe in distress at big bay town park. Two canoes with 2 fire fighters in each went out in the lagoon at the town park to assist a lone paddler back to the safety of dry ground.

As always let be safe as our population explodes during the summer.
Chief Reichkitzer
